

The Tri-Weekly Gazette.

To meet a demand that is felt everywhere in these hurrying times, we shall commence the publication of a Tri-Weekly edition of the Gazette on the first of March next. Many persons who cannot quite afford a daily paper, and are unwilling to wait for the tardy visits of the Weekly, will find the Tri-Weekly just suited to their wants. Those, too, whose mail facilities are such as to make a daily out of the question, will be glad to avail themselves of the next best thing and get a paper every other day. The Tri-Weekly will contain the very latest military and other news from all quarters, up to the time of going to press.

The terms will be \$4.00 per annum in advance, or at the same rate for three or six months. We shall be obliged if subscribers will hand in their names at once. THOMPSON & ROBERTS.

Legislative Correspondence.

(From Our Special Correspondent.)

MADISON, Feb. 18, 1895.
Editors Gazette:—Before I tell you what was done in the Legislature to-day, I must give some account of the visit of the Legislative Committee to the Blind Institute; which I can assure you was in all respects, satisfactory and edifying. On arriving in your city, the committee was waited on by Mr. Little, the active and courteous superintendent of the Institute, and by Mr. Collins, the business man who keeps it books. All the accounts were systematically and plainly arranged so that their correctness was easily verified, and the investigation discovered that the supplies for the Institute are bought on very favorable terms for the State, and with a care and discretion that reflects highly on the financial ability and attention of the managers.

On arriving at the Institute, the blind pupils were found busily engaged in their several glass rooms threading the various paths of knowledge with a perseverance and attention that put their blindness quite out of mind and only left room for wonder and admiration that they could be brought to overcome their natural difficulty so nobly, and acquire attainments that put them on a par with the most favored in sight and intellect. In some of the classes I noticed several merry looking little pupils, whose clear bright eyes, gave no indication that they were insensible to sight, and whose ready motions and promptness gave no idea of blindness. One little fellow in a class had his head bent on his hands, as his eyes pained him some, but he was ready and anxious as the rest to answer questions, showing that his mind was full of light and patience.

The morning was spent in inspecting the various classes, all of them showing proficiency to the various branches of education, and while with the juvenile geography classes an amusing question was evoked. Mr. Collins had examined the pupils very thoroughly on the various rivers and states in the United States, during which the question of the Mississippi, or Missouri being the longest river was discussed by the visitors; when Elder Tilton asked one of the sharp little boys to give him the boundaries of his native State. The boy promptly gave him the correct boundaries, whereupon one of the other visitors asked the boy to tell the products of Maine; which he knowingly did, by promptly saying, much to the mirth of the Elder and the visitors, "pine trees and Methodist ministers."

At dinner the tables seemed to be spread with wholesome and tastefully served food.

In the afternoon, the girls were seen at their sewing, and little boys and girls threading beads and making bead ornaments of surprising neatness and beauty. The larger boys were making brooms in their workshop, which they did with great accuracy and dispatch; their perfect work and its execution giving no idea of blindness. They have at present a small, rickety and inconvenient workshop; but when the adjacent building is finished, as it will be some months hence, they will be supplied with the commodious shop that they need and should have without delay.

After this inspection, the visitors began to enjoy the treat of song and music that they had been anxiously expecting. The first music was by the brass band which played in the open air giving several airs very effectively. The visitors then went to the concert room, where all the pupils were assembled, and where a violin band, solos, duets, quartettes and choruses successively charmed the ears of the delighted listeners. In hearing such melody two hours passed very rapidly and pleasantly.

When the concert was finished, Mr. Little made some remarks explaining that the classes had been seen in their usual working exercises, and the pupils were feelingly addressed by Messrs. Ross, Tilton, Reynolds and Abrams. In the remarks the idea was expressed that such pupils could only be surrounded with the love and respect of all the world and that their various attainments make themselves and others very happy.

The visitors left deeply impressed with their visit, and after receiving the warm-hearted and hospitable attentions of Dr. Treat and other of your social and public spirited fellow citizens, left for the Capital city, feeling proud of their State and its considerate, open-hearted Badgers.

In the legislative bills were introduced to incorporate a river shore railroad from Dunleith to Lake St. Croix, and requiring railroads to transport root wood and fixing the rates therefor. Nothing more of general interest.

While so many have "Petroleum oil" on the brain, it is gratifying to know that some are so fortunate as to have the regular sweet smelling "Coconut oil" on, among which last is your lucky

Military Matters.

Recruiting has been very brisk during the past week, and we learn at Col. Lovell's office that there are now 3,500 men in camp Randall, and some 150 had reported at camp Washburn, in Milwaukee, for the 38th, 40th or 42nd days ago. There have been nearly 1,500 men mustered into the U. S. service during the week, mainly by Lt. Purcell, here.

The other new regiments authorized having been filled up so rapidly, the Governor has authorized the organization of the 50th regiment, and appointed excellent officers as follows:

Colonel—Capt. John G. Clark, of Grant, Lt. Colonel—Capt. J. B. Vian, (Co. I, 31st), of Milwaukee.
Major—Capt. Hugh McDermott (Co. D, 17th) of Kenosha.
Adjutant—Hon. Geo. D. Myers, of Outagamie.
Quartermaster—Robt. B. Smith, of Fox Lake.
Surgeon—John H. Vivian, of Mineral Point.

The Colonel was for two years Quartermaster of the 5th Wisconsin, participating in its campaigns on the Peninsula, and the Rappahannock and Rapidan, making one of the most efficient and faithful officers in the service. He is now Provost Marshal for the 3d district. He is widely and favorably known in the western part of the State. He will make a gallant officer, and will know how to take care of as well as to command those entrusted to his care.

The Lieutenant Colonel is an engineer of ability, who raised a company for the 31st, and has made a brave and skillful officer. He was taken prisoner some months since, and after various thrilling adventures effected his escape.

The Major is a warm-hearted Irishman, an enthusiastic lover of his country, who raised a company for the 17th, and has served with high distinction through Sherman's arduous campaigns. He has well earned promotion.

The adjutant is a prominent citizen of Appleton, and, as well as the quartermaster, is well fitted for the place.

The Surgeon, Dr. John H. Vivian, now one of the Board of Enrollment of the 3d district, is a well known citizen of Iowa county, has served several terms in the Legislature, and is an excellent physician.

The following is the condition of the new regiments organized prior to the 50th: The 44th is full. Col. Symmes was mustered on the 17th, there are three companies in Tennessee, and Co. H, Capt. Beebe, Co. I, Capt. H. H. Martin, Co. J, Capt. Beebe, Co. K, Capt. Beebe, Co. L, Capt. Beebe, Co. M, Capt. Beebe, Co. N, Capt. Beebe, Co. O, Capt. Beebe, Co. P, Capt. Beebe, Co. Q, Capt. Beebe, Co. them to ride while they labor. By the way, where deep tillage is required, we think there is no team quite equal to three good horses driven abreast on a long even-er.

We should have stated above that much of the fertility of the soil is derived from the atmosphere, as we turn up new soil we expose to the action of the air new particles of chemicals, which absorb from the air such gases as increase the fertility of the soil. Constant cropping exhausts these of these component parts of the fertility. These can be replaced by manure, lime, salts, ashes, &c. In the absence of these, a summer fallow will tend to develop native or unexhausted fertility.

Farmers must pay more attention to these important facts. Farms do deteriorate under the present system of cultivation. Better commence in time, than to mourn and lament over a worn out farm, for farms will wear out, even in Illinois. A residence of twenty years has convinced us of the fact.

A SUPERIOR REMEDY.
We can conscientiously recommend to these suffering from a distressing cough, Dr. Strickland's Mollifying Cough Syrup. It gives relief almost instantaneous, and is without doubt the most valuable remedy. There is no doubt that the Mollifying Cough Syrup is one of the best preparations now in use, and is all that its proprietor claims for it. We have tried it during the past week, and found relief from a most distressing cough. It is prepared by Dr. Strickland, No. 344 Fourth street, Cincinnati, O., and for sale by Druggists at 60 cents per bottle.

HAGAN'S MAGNOLIA BALM.
This is the most delightful and extraordinary article ever discovered. It changes the skin from a harsh and unattractive to a smooth and beautiful texture, removing the impurities of the skin, and imparting the delicate and delicate appearance so inviting in the face of health. It removes tan, freckles, pimples and roughness from the skin, leaving the complexion fresh, transparent and smooth. It contains no material injurious to the skin. It is a household necessity, and should be in every family. Prepared by W. H. HAGAN & CO., N. Y. Address all orders to DEMAS BARNES & CO., New York.

MEXICAN MUSTANG LINIMENT.
The parties in St. Louis and Cincinnati, who have been counterfeiting the Mustang Liniment under the name of Mustang Liniment, have been thoroughly exposed by the Courts. To guard against further imposition, I have procured from the United States Treasury, a private steel plate revenue stamp, which is placed over the top of each bottle. Each stamp bears the face of the seal of the Treasury, and without which the article is not genuine. It is a household necessity, and should be in every family. Prepared by W. H. HAGAN & CO., N. Y. Address all orders to DEMAS BARNES & CO., New York.

Announced.

The Circuit Court adjourned on Saturday last to the 17th of March.

Picked up in the post office, a lady's driving glove, which the owner can have by paying charges.

Found.—Somewhere between a gentleman's hat and his boots, seventy dollars, advertised in our paper of Saturday. The benefits of advertising are manifest.

Fourth Wardens interested in the draft will do well to attend the meeting of enrolled men at the Court Room this evening at 7 o'clock. Reports of the committees are to be made.

SEVERE ILLNESS OF MR. E. L. ROBERTS.—A dispatch was just received to-day by Mr. S. G. Williams announcing the dangerous illness of Mr. E. L. Roberts formerly of this city, but now of Cedar Falls, Iowa.

REVIVAL.—The revival in the M. E. Church still continues with unabated interest. Upwards of one hundred and twenty-five have been converted, among whom are some fifteen or twenty of the students of the Blind Institute.

HAVE ARRIVED.—The well known Gift Troupe of Bruce & Co., will commence their popular Gift entertainments at Lippin's Hall to-night. The exhibition comes from the Academy of Music, Milwaukee, where they have been performing for the past two weeks. The following complimentary notice we sent from the Milwaukee Daily Sentinel of last Thursday, February 16th, 1895.

Bruce & Company's Model Gift Troupe closed a very successful engagement at the Academy of Music last night. Their gift entertainments are sure to meet with success as soon as their merits become known. We learn that Mr. Bruce will again visit Milwaukee at no distant period, and they are sure of a good business. They open at Janesville on Monday evening, for one week, and then to Madison, opening at the City Hall, Feb. 27th. We wish them success. We do not hesitate to assert that they are in our opinion the only gentlemen in the gift business that fulfill all their promises to the public. This the citizens of Milwaukee well know.

Thoughts for Home Students—No. 3.

For the Gazette.

"One gem derived from Learning's store, Serves to create a thirst for more; And never can true thirst be quenched, Until the mind has drunk its fill of lore."

Could P. T. Barnum gather all the wild beasts of the globe, fowls of the air and fish of the sea, into one vast zoological garden, it would not equal the teeming millions around your own homes. Dr. Ehrenburg demonstrates that the smallest forms of animals, called Monads, are colorless and transparent as crystal, having as perfect organizations as much larger creatures. The parent spontaneously divides itself into two or more parts, and these parts become parents by their spontaneous division, and so they continue to multiply, after their origin is perfected. These little fellows form the limit of our acquaintance with animated nature. 24,000 of them may be side by side in the space of one inch. The *Didymon* must be magnified 100,000 times in surface before it can be seen. Make an infusion of Spider-worm, and they will spring into being on its surface in such numbers, that many millions may be taken up on the head of a pin, or you may put 220,000,000,000 into an ordinary thimble.

You would hardly suppose their little bodies could evolve thoughts or manifest instinct or sagacity. But God's power is infinite, and His wisdom beyond all human conception. Rev. Thomas Dick informs us that Mr. Baker put some hair-like animalcules into a jar of water. One part went to the bottom, while the other part floated on the top. They grew weary of camp life and determined to march. As their advancing columns approached each other, the ascending army opened to the right and left, and continuing on in two columns, completely flanked the evacuated camp at the top; while the descending column passed through, proceeding majestically to the bottom, in as perfect order as though marshaled by "Little Mac" himself.

These wonderful creatures have been confined in minute drops of water and between two concave glasses, showing as if searching from point to point and carefully examining every apparent opening, as would Jeff Davis if confined at Johnson's Island or Camp Douglas.

In my next I will show you that it is as easy to produce these living wonders by conditions and in any kind you may desire, as it is for the farmer to produce rye

from oats sown the year before and kept cropped down during summer and autumn and allowed to remain over winter, as Dr. Wersenhorn says has been done repeatedly.

The JANESVILLE GAZETTE is one of the best papers in the state, besides being one of the oldest, as it will soon enter upon its twenty-first volume. It is up to the times in everything that goes to make up a first-class live newspaper. The news of the day is published in full, and in the weekly digest of the local news from every county in the state. It is most emphatically a family newspaper, such as any intelligent parent would welcome to his home and place in the hands of his children. *Nippon Commonwealth.*

Dimock has recently been appointed agent for that sterling old Fire Insurance Company of New York, the Metropolitan. They divide 75 per cent of their profits among policy holders, and have cash assets amounting to some \$800,000. feb20dawit.

It will not be forgotten that Dimock still represents all the big leading companies of New York and Hartford, such as the Old Athena, Home, Hartford, Phoenix, International, Security and many others, equally sound and reliable. Twenty Millions represented. feb20dawit.

The Lorillard Fire Insurance Company of New York is now represented by Dimock. They have cash assets amounting to more than three-quarters of a million of dollars and divide annually 75 per cent of their profits among policy holders. feb20dawit.

The venerable Old North American Insurance Company of New York, has recently been added to Dimock's list of Sound Old Eastern Companies. feb20dawit.

The North American was established in 1823, and now has nearly one million of cash assets, and divides 75 per cent of its profits to policy holders. feb20dawit.

ON ALL sides we hear the merits of the Grover & Baker Sewing-Machine extolled. The ladies declare it the "very best," and prove it to us in so many undeniable facts that we are bound to confess our conviction of the truth of the declaration. What other machine will embroider so beautifully, braid so elegantly, hem so faultlessly, quilt so evenly, stitch so accurately, gather so regularly, operate so easily? None, we conscientiously affirm. feb20dawit.

THE GRAND GIFT CONCERT.—It will not have escaped the attention of our readers that Prof. Balch, of Milwaukee, gives a grand concert in Milwaukee on the 22d of March, at which a large number of rich and valuable prizes are to be distributed. The gentlemen engaged with the Professor in this enterprise are substantial and reliable business men, who in the management of a similar entertainment for the past three years have made it a complete success. Dig, King, at the Post Office, is the agent for the sale of tickets in this city and vicinity. feb20dawit.

DYSPEPSIA, NERVOUSNESS, AND DEBILITY. Dr. STRICKLAND'S Tonic.—We can recommend those suffering with Loss of Appetite, Indigestion, or Dyspepsia, Nervousness and Nervous Debility, to use Strickland's Tonic. It is a vegetable preparation, free from alcoholic liquors; it strengthens the whole nervous system; it creates a good appetite, and is warranted to cure Dyspepsia and Nervous Debility.

For sale by Druggists generally at \$1 per bottle. Prepared by Dr. A. Strickland, 6 East Fourth street, Cincinnati, O.

GRAND GIFT CONCERT.—The following strong endorsement of Bruce & Co.'s Gift Enterprise is from the Milwaukee Sentinel of February 11th:

Bruce & Co's Monster Gift Troupe, at the Academy of Music, have given splendid entertainments and very useful presents to good houses. They remain to-day and to-morrow and possibly no longer. They are to give away \$200 worth of useful articles each night. Karl Kahr is, without doubt, the best wizard now before the country. A Grand Matinee will be given this afternoon, at 3 o'clock, for the amusement and pleasure of Young America, when 50 presents and 30 pounds of candy will be distributed. The Matinee will be crowded. Another performance takes place this evening, when the highest prize will be an elegant silver plated tea set—cost, \$75.

We can recommend this gift enterprise to the public, as being no humbug and well worth popular patronage. feb20dawit.

The News.

The news this evening is of the most grand and thrilling character. Columbia, the capital of South Carolina, has fallen, and the nation's ensign that her recreant sons have so often insulted, again floats in triumph over it. This would be good news enough to gladden every loyal heart, but the dispatches contain something better still—the evacuation of Charleston itself, the hottest nest of treason this side of Pandemonium, and the very spot where the eggs of secession were laid. The long, long dark night of this terrible rebellion begins to give way at last to the glorious day of peace whose beautiful aurora already tints the coming morning. The Charleston Mercury, one of the ablest and most arrogant of the original traitorous sheets of the South, has changed its base, but probably not its baseness, and gone off on Sambo's back to parts unknown. Its chuckling and grinning over Sumter's fall, has ripened into fruit far more bitter than it dreamed of on April 13th, 1861.

As for the gallant boys in blue under the invincible Sherman, like old John Brown's soul, they are still "marching on" whithersoever they please, without a rebel in front to molest or make them afraid. The Richmond papers say Sherman has no need of a base, as he lives on the country and goes from point to point at will without opposition to use up his ammunition.

Those that dig pits for others generally fall into them themselves, as witness the blowing up of the rebel flag of truce boat by one of their own torpedoes.

State News.

The proceeds of the Fair last Thursday evening for the benefit of the Baptist Society, at Ripon, was about \$160. Two gentlemen of Ripon are to build a pleasure vessel to run on Green Lake for the accommodation of visitors. The Jefferson Banner gives an account of the suicide, by hanging herself in a cellar, of Miss Julia A. Cobb, an intelligent young lady, of pleasant disposition, and engaged in teaching. No cause for the act is known.

The Ozaukee Advertiser says Senator Morgan's vote for Senator W. H. Chandler as President pro tem, of the Senate, is severely criticized by his democratic constituents. A man named Keefe, apparently in perfect health, who has resided in Port Washington for a number of years, while conversing with another man by the roadside, suddenly dropped dead.

The McGregor News says while a lot of cattle were being driven across the Mississippi to Prairie du Chien, the ice gave way and several were drowned.—The Ripon Commonwealth says: A lot of dirty Winnepigons Indians have been hanging around that city for the past week, and in some instances making themselves quite troublesome by perambulating the streets during the night, going to private houses and frightening women half to death. It is estimated that Sauk county sold \$150,000 of army horses and \$10,000 of wool last year.—The Oshkosh Northwestern says it is proposed to establish a shipyard there. The railroad earnings of Oshkosh station for January amounted to \$39,504.40, an increase of \$12,936 on December. A convict lately escaped from State Prison, expedited his progress by swapping horses as fast as the one he was using became tired.—The Monroe Sentinel says Blum, accused of the murder of Mr. Trogner, at New Glarus, after examination, has been committed to jail to await trial.—The Green Bay Advocate says the new lake shore telegraph line is working through to that place; that Deperre is a splendid place to start a paper mill; that large amounts of dry goods and groceries are going to the Superior region. The chingle mill, grist mill and old saw mill, at Stiles, owned by Mr. A. Eldred, were recently entirely destroyed by fire. Loss probably about \$40,000. The Advocate denounces roundly the unmannerly conduct of rude boys such as are to be found elsewhere than at Green Bay at concerts and other entertainments.—The Milwaukee Sentinel tells a story of a novel incident in a court room. While one of the witnesses was undergoing cross examination she "brought matters to an issue" by introducing a new witness for the defense, in the shape of a new born infant. Proceedings were immediately stayed and the court adjourned.—The Waukesha Freeman notes the arrest of three or four bounty jumpers, one of whom, a notorious deserter it seems, was arrested there for forgery.—It is a common practice with many persons to blow out instead of turning down the wick when they wish to extinguish a kerosene lamp. It appears to be a dangerous practice. The Dodgeville Chronicle tells of a man in that place named Joseph Lean, who was seriously burned by an explosion caused by blowing out the light. Another objection to the practice is that it leaves suffocating vapors in the room.—The Fond du Lac Press urges the formation of a Board of Trade in that city.—The Fond du Lac Reporter says a Vermont Hammond ram lamb has been bought by Geo. F. Wheeler and his brother of Springvale, and A. Atwood, of Waupun, for the sum of \$1,000.—At a late festival for some charitable purpose, held in the rural town of Empire, the gentlemen were charged ten cents for kissing the girls—that is the young ladies. Considering that "everything is so high" now—

days, we think the price was too cheap. A religious revival is in progress at Fond du Lac in the Methodist Churches.

There is always danger in making prophecies. The London Index, the British organ of the rebels, affords a striking example of this: Fort Fisher was taken on the 15th of January, and on the 19th of the same month, four days after the fort was actually taken, the Index, commenting on the details of the first expedition, boldly predicted that there would be "no attempt to retrieve the reverse at Wilmington for the present, for, it continues, neither Grant nor Burnside has the ear of Mr. Lincoln, and to take Wilmington, or Charleston or Mobile will require the advance of an army larger than that commanded by Sherman, and Gen. Bragg is not uttering a vain boast when he states that he can hold Wilmington against any attack from the sea."

A CALCUTTA letter of the London Times estimates the number of persons killed in India by the fearful hurricane of October last, at 60,000. In the island of Sangor alone, 7,000 perished out of a population of 22,000.

UNION NOMINATIONS IN CONNECTICUT.—The Union State Convention of Connecticut has re-nominated William A. Buckingham for Governor, and Robert Morrill for Lieutenant Governor.

A. D. RICHARDSON, the New York Tribune's correspondent, who recently escaped from Dixie, lectured in Boston the other evening to an audience of 3,000 persons, giving an account of his adventures.

SHERMAN'S army is said to be 103,000 strong. A goodly force, and busily engaged, at last accounts, on "God's great Southern threshing floor."

The "conservatives" in the Kentucky Legislature have held a caucus and resolved to oppose the constitutional amendment.

The Canadiana complain of the enormous amount of American silver in circulation. A discount of 4 per cent. is allowed on 25 and 50 cent pieces.

The Minnesota legislature has a land grant to dispose of, and is absorbed by railroad matters.

The Last Hours of Ex-Gov. Hicks.

At 7 o'clock this morning Hon. Thomas H. Hicks, late United States Senator from Maryland, breathed his last at the Metropolitan Hotel in Washington, in the 68th year of his age. He had been in the last two weeks by what was supposed to be a slight indisposition, superinduced by excessive mental labor. On Friday morning last, after a night of unusually refreshing sleep, he was suddenly stricken by paralysis, just as he was in the act of rising. From that time until within a few hours of his decease, he remained speechless, but entirely conscious and intelligent, seeming to take an interest in every thing addressed to him and fully realizing his near approach to the close of life. Toward his intimate friends, who called to see him, he exhibited deep emotion. Such was peculiarly the case when visited by the President of the United States, who, on being apprised of his condition, hastened to manifest his respect toward the dying patriot and statesman. As he came mournfully to the bedside of the man who had stood by him with such unflinching courage in the hour of trial, his generous heart was deeply moved by the consciousness that he was about to lose one of his truest counsellors, and his country one of its most faithful friends. The scene did honor to the Chief Magistrate of the Nation, who had thus turned aside from the stern cares of State, to pay the homage of grateful affection to a faithful coadjutor, around whom the shadows of death were falling, and who, while passing away, evinced by emotion and tears his deep solicitude for the salvation of his country. It has seldom, if ever, been the privilege of man to witness a more impressive and majestic death-bed scene. It was marked by that modest intrepidity, firmness, self-possession, gentleness of heart and tenderness of affection, which were the chief characteristics of the life of the deceased.—Baltimore Clipper.

THE REBELS ARMING THEIR SLAVES.—Touching the question of the rebels arming their slaves an army correspondent says: "The rebel leaders may be right in their calculation; but those who have seen negroes by hundreds risking death from bullets and bloodhounds to escape from their masters, whenever a Yankee army has shown itself, think that a very miraculous and sudden change must come over those people before they fight against us and their free brethren on this side. Those whose eyes are not thoroughly blinded by the maddening mists of rage and despair, shudder for the South itself—at the bare thought of so terrible and desperate an experiment."

PEACE.—Mr. Greeley says in a late number of the Tribune: "We have advice on which we rely from most of the States claimed as adhering to the Rebel Confederacy, assuring us that a majority of their people are heartily sick of the rebellion and weary of the war. North Carolina, Georgia, Alabama, Arkansas, Louisiana, Tennessee, and probably Mississippi and Florida, are of this mind. These people mean to upset their rebel rulers, and renew their ancient, amicable, and beneficial relations with the Government of the United States."

WASHINGTON, Saturday, Feb. 19.

To Major General Dix: The announcement of the occupation of Columbia, S. C., and the probable evacuation of Charleston, has been communicated to the Department, in the following telegrams, received from General Sherman:

E. M. STANTON, Secretary of War.

"City Point, Feb. 18.—15 p. m. Hon. E. M. Stanton: The Richmond Dispatch of this morning says Sherman entered Columbia yesterday morning, and its fall necessitates, it presumes, the fall of Charleston, which it thinks is already being evacuated."

"U. S. GRANT, Lt. Gen'l." "City Point, Va., Feb. 18. Hon. E. M. Stanton, War Department: The following is taken from to-day's Richmond Dispatch:

THE FALL OF COLUMBIA. Columbia has fallen. Sherman has marched into and taken possession of the city yesterday morning. The intelligence was communicated yesterday, by Gen. Beauregard, in an official dispatch. Columbia is situated on the north bank of the Congaree river, just below the confluence of the Saluda and Broad rivers. From Gen. Beauregard's dispatch, it appears that on Thursday evening the enemy approached the south bank of the Congaree, and threw a number of shells into the city during the night. They moved up the river, and yesterday morning forced the Saluda and Broad rivers. Whilst they were crossing these rivers, our troops under Gen. Beauregard, evacuated Columbia. The enemy soon after took possession. Through private sources we learn that two days ago, when it was decided not to attempt the defense of Columbia, a large quantity of medical stores, which it was thought impossible to remove, were destroyed. The female employees of the Treasury Department had been previously sent off to Charlottesville, one hundred miles South of Columbia. We presume the Treasury lithographic establishment was also removed, although as to this we have no positive information. The fall of Columbia necessitates we presume the evacuation of Charleston, which we think likely, is already in progress of evacuation. It is impossible to say where Sherman will direct his steps. The general opinion is that he will go to Charleston and establish a base there; but we confess we don't see what he is subsisting on the country, and he has had no battle to exhaust his ammunition. Before leaving Savannah he declared his intention to march to Columbia, thence to Augusta, and thence to Charleston. This was uttered as a boast to hide his designs. We are disposed to believe that he will next strike at Charlotte, which is 100 miles north of Columbia, on the Charlotte and Columbia Railroad, or at Florence, S. C., the Junction of the Columbia and Wilmington Railroads. There was a report yesterday that Augusta had also been taken by the enemy, this we do not believe. We have reason to feel assured that nearly the whole of Sherman's army is at Columbia, and that the report that Schofield was advancing on Augusta was untrue.

"The Richmond Mercury" says the Charleston Mercury of Saturday announces a brief suspension of that paper, with a view to its temporary removal to another point. This is rendered necessary by the progress of military events, cutting it off from its small facilities for distributing the paper to a large portion of its subscribers, while the lack of transportation renders its supply of paper precarious.

"Semmes has been named a Rear Admiral, and will take command of the James river squadron. U. S. GRANT, Lieut. Genl."

WASHINGTON, Feb. 19, 1865.

Last night the Department received the gratifying intelligence of the occupation of Columbia, the capital of South Carolina, by Gen. Sherman, and the probable evacuation of Charleston by the enemy. Hast-

en on the recruiting, fill up the army, and the rebellion must receive its final blow in the Spring's campaign. (Signed) E. M. STANTON, Secretary of War. WAR DEPARTMENT, WASHINGTON, Feb. 20.

To Major General Dix: The evacuation of Charleston by the rebels, is announced in the following telegram just received from Gen. Grant:

CITY POINT, Feb. 20. E. M. Stanton, Secretary of War: The following dispatch has just been received, signed U. S. Grant, Lt. Genl: The Richmond Examiner of to-day, just received, says that Charleston was evacuated on Tuesday last.

G. WEITZEL, Maj. Genl.

FROM THE SOUTH.

Philadelphia, Feb. 18.—The Bulletin has the following special dispatch from Washington:

Richmond papers of the 16th say that Sherman's main column has reached Kingsburg Junction and that Col. Munford is south of Florence on the Lancaster and Florence Railroad, and communication on the Florence and Lancaster Railroad was interrupted.

Beauregard is reported, as being on the north branch of the Congaree River, Kingsville is on the North side of the Congaree forty-one miles north of Branchville and twenty-five miles southeast of Columbia.

New York, Feb. 20.—We have nothing later this morning regarding Gen. Sherman's successes.

The Richmond Examiner of the 17th has some particulars of the reported fight between Kilpatrick's and Wheeler's cavalry on the 11th inst., at Aiken on the Railroad leading from Branchville to Augusta, and about 18 miles from the latter place. The Examiner reiterates the previous rebel statements that Kilpatrick was driven back a distance of about five miles and gives as a reason for not continuing the pursuit, the exhaustion of ammunition. It is claimed that a number of Union soldiers were captured the other day.

The Why says there was nothing at the War Department to verify the reported defeat of Kilpatrick.

The rebels now estimate the entire number of Sherman's forces operating in the interior of South Carolina, at only 40,000.

The Richmond Why of the 17th says all it could learn on inquiry at the War Department was that Sherman was somewhere but it was not known where.

The Columbia Guardian of the 12th announces the burning of the village of Allendale.

The Wilmington Carolinian intimates that an important movement is going on which is supposed to be the evacuation of that place. The same paper says a considerable Yankee force landed in the vicinity of Little River, with the supposed intention to break the Manchester railroad.

The Richmond Examiner says the forces landed at Newborn are greatly exaggerated. Only a few Yankees have landed there.

The Mobile Register says the Southern people are not whipped but cowed. Their souls and not their hands are disabled.

Our strength is not sapped, but our courage is oozing out at our fingers' ends.

The Columbia S. C. Carolinian says the appointment of Gen. Hampton to the command of such divisions as those of Gen. Beetle and Young is an earnest of success. He is once more at the head of men he has so often led to victory on Virginia fields; the men on whom both himself and the country can depend, and we may therefore look for a repetition of gallantry from every battle in which they have had place.

The co-operation of Gen. Johnson, who although for the present is behind the scenes does not withhold his skill and experience whenever demanded, together with scores of other facts of an encouraging character which should not be published, are events that will give the people great joy.

The Lynchburg Republican says the Virginia & Tennessee Railroad, it is thought, will be opened for travel to Bristol by the first of March. Repairs are being pushed forward with unusual energy. Some idea of the magnitude of the work to be done immediately, is formed from the statement that all the bridges, fifty or sixty in number, for a distance of eighty-five miles have to be rebuilt and much of the track relaid, besides other repairs to be made of minor importance.

Gen. W. Martin has assumed command in place of Gen. Gardner, of the Department of United States and East Louisiana with his headquarters at Jackson.

FROM WASHINGTON.

New York, Feb. 18.—The Commercial's special says Senator Morgan, this morning presented a petition to the President from New York merchants, asking a cabinet appointment for Governor Boutwell.

New York, Feb. 20.—During a recent debate in the rebel Senate the food question came up, when it transpired that the vast yield of the valley of Virginia which had in former years been always secured, last year fell into our hands. That this was the result of calling into the armies the details for gathering it; that thousands of soldiers' families had not starved in the last six months and were living on a short supply of bread alone. That the soldiers themselves had also been without meat for a long time.

Washington, Feb. 20.—The President has approved a bill for mail steamship service between San Francisco and ports in the Chinese Empire, touching at Honolulu, and at ports in Japan by means of a monthly line of first class American sea-going steamships; making twelve round trips annually. The Postmaster General is authorized to contract with the lowest responsible bidder for a term of not more than ten years; no bid amounting to more than half a million of dollars is to be considered.

FROM MEXICO.

New York, Feb. 19.—Further details received by the last arrival from Vera Cruz, show that fighting between the Juristas and Imperialists is actively carried on in the interior of the country. The friends of the former state that Gen. Patricio has taken the town of El Turo and shot Francisco Vega, the head of the Imperialist movement in that vicinity.

The Eldorado Juristas guerrillas intend plying to death every rebel soldier they may capture, on the plea that any one fighting for, or holding office under Maximilian is a traitor to Mexico and Mexican liberty.

Many other movements in the interior are named which show the activity of the national party. The campaign at Oaxaca, however, gives rise to undisguised anxiety. Oaxaca is now defended by Gen. Diaz,

while Gen. Bazine in person is leading an expedition against it, but his vanguard had been defeated.

It is said that the deficit in the Treasury of the Imperial Government of Mexico, is \$20,000,000 annually. The Emperor has an allowance of \$200,000.

The Pope's encyclical letter has not been circulated in Mexico, as the government has not yet given its consent to such circulation.

The new order of knighthood, the Mexican Eagle, is to be established by Maximilian.

FROM NEW YORK.

New York, Feb. 18.—Gold is rather stronger. It is said that Stevens movement against gold dealers has created a full interest upon which important transactions in buyers options have been raising a rumor that Maximilian has recognized the Confederacy, also gives strength to the market. The quotations have ranged from 2.04 opening price to 2.04.

New York, Feb. 18.—The jury in the case of Fierly for the murder of Harry Lazarus, brought in a verdict of murder in the first degree.

The libel case, Count Jorannes versus Florence Greeley, was decided in favor of the defendant.

FROM GRANT'S ARMY.

WASHINGTON, Feb. 18.—The Star has the following dispatch:

CITY POINT, Feb. 17, 8:30 P. M.—The rebel flag of truce boat, Wm. Allison, while on her upward trip from Cox's Landing, this afternoon, was blown up by a torpedo. The boat went down almost immediately. Our pickets say there were no survivors from her. There were no prisoners obtained at the time. This catastrophe probably arose from one of the enemy's own torpedoes, which has been in the water for some time.
